EDUCATION

Case Western Reserve University | Cleveland, OH — **Aug 2023 - May 2027**

B.S. in Computer Science, Minors in Computer Engineering, Econ, Math — **GPA: 4.0/4.0**

Honors & Awards: Dean's High Honors List (Every semester) | *Tau Beta Pi* Engineering Honor Society | Case Alumni Foundation Junior-Senior Scholarship (2025) | Frank L. Merat Prize (2025) | Tuition Exchange Scholarship (2023)

TECHNICAL SKILLS

Programming Languages: Python, Go, Swift, C++, Java, C#, C, Javascript, Typescript, PHP, SQL, Bash, MATLAB, R
Frameworks & Libraries: React, React Native, SwiftUI, Next.js, Express, Tailwind, Axios, PyTorch, scikit-learn
Tools & Platforms: Git, GitHub Actions, AWS, Terraform, Docker, Firebase, Snowflake, Supabase, Postman, Linux, Unity

RELEVANT EXPERIENCE

Software Engineer Intern | Kohlberg Kravis Roberts & Co. L.P. (KKR) — **Summer 2026**

- Incoming summer internship on the **Investment Systems** team.

Technical Lead | CWRU xLab – Dealer Tire — **Jan 2026 - May 2026**

- Leading a team of **4 developers** building a conversational AI system that helps Account Managers generate Account Summaries; features hands-free UI, follow-up prompting, and quality validation to replace a **30-minute** manual process.
- Designed **two-agent architecture** (Interview Agent + Generation Agent) with dynamic checklist validation; defined database schema, REST API contracts, and comprehensive feature specifications to enable parallel development across the team.

Software Engineer Intern | 1848 Ventures — **May 2025 - Dec 2025**

- Architected a scalable **lead-gen platform** (**AWS/Terraform**) with PostgreSQL data isolation, contributing ~**80%** of the codebase. Built RAG-based pipelines and web scrapers to enrich **50,000+ SMBs across 15+ ventures** in the venture studio.
- Built multiple **AI agents** that tests cookiecutter updates, propagates changes to **10+ downstream ventures**, and backports innovations using **AWS Step Functions, Fargate, Lambda, and Anthropic models** to fully automate workflows.

Undergraduate AI/ML Researcher | EINSTEIN Lab, CWRU — **Jan 2025 - Present**

- Developed **SVD-based KV cache compression** with **fused output projections for multiple transformer architectures**, achieving **87.5% memory savings** with only **5% perplexity increase** through **dynamic rank selection.**
- Deployed **PyTorch** framework on CWRU **HPC clusters**; validated compression algorithms on model weights across **4 research-grade models** up to **8B parameters** with end-to-end inference pipelines and comprehensive benchmarking suite.

Software Engineer Intern | Eaton Corporation — **Jan 2025 - May 2025**

- Developed an **AI training platform** using **Next.js**, **FastAPI**, and **Firebase**, integrating **RAG-powered simulated customers**, reducing onboarding time by **40%.** Delivered features like automated evaluations and performance dashboards.
- Built key features including **JWT authentication**, **role-based access control**, and a custom module creation system with over **20 predefined modules**, supporting **50+ users** across four access levels.

PROJECTS

AI Avatar Kiosk | *Next.js, Serverless, AWS S3, HeyGen, WebRTC, IndexedDB* — **June 2025 - Aug 2025**

- Built a **full-stack AI avatar kiosk** as a permanent exhibit for the **CWRU School of Management**, serving **100+ daily users**. Integrated **HeyGen** streaming avatars with real-time voice/text chat using **WebRTC** and **server-sent events**.
- Developed enterprise authentication with **CWRU SSO** (**CAS + JWT**), designed a dual-screen kiosk interface with **cross-browser state synchronization**, and implemented offline-first avatar management with **IndexedDB caching**.

AI Benchmarking Platform | *Next.js, TypeScript, Tailwind, Drizzle, PostgreSQL* — **Sep 2025 - Dec 2025**

- Developed a full-stack **AI benchmarking** platform for xLab at CWRU—now used by **5 paying clients**—to evaluate how companies adopt and operationalize AI and benchmark their performance against industry peers.

CampusGuessr | *Next.js, React, Tailwind, Supabase* — **Sep 2025 - Dec 2025**

- Built a **GeoGuessr-inspired** game for CWRU played by **1,000+ students**, featuring 360° locations, leaderboards, real-time multiplayer, and a community-driven platform with **300+ spots**.
